

Kelvin Spike Probes

For Digital Low Resistance Ohm Meters (Micro Ohm Meters)

Design Exclusive to Raytech

Technical Specifications:

Part No: 2020N-33001, 4M length

Part No: 2020N-33005, 5M length

Custom lengths also available

4" insulated spike probe measuring shaft
with spring-loaded potential tip
centered in dual current points

4" easy-grip, robust handle

Can be used with any 10 Amp
Contact Resistance Meter
(Kelvin measuring system)
